

My Ardor English is an intuitive and easy-to-use eLearning course that teaches you English through videos, interactive exercises, voice recording, and simulated conversation. With content created by Oxford University Press – the world’s leading authority on the English language – My Ardor English will help you develop your reading, writing, listening and speaking skills at your own pace and with the help of a virtual teacher. Combined with support from our unique Dynamizer service, the program has achieved true learning outcomes for hundreds of thousands of learners worldwide.

HOW DOES IT WORK?

PLACEMENT TEST

Before you begin learning with My Ardor English, you will be issued an online Placement Test, which assures that you will be placed on the correct learning path. The test evaluates your reading and listening comprehension and places you in the course level that best corresponds to your ability.

YOUR VIRTUAL TEACHER

Meet Annabel. She appears over 1,000 times during the course to introduce different sections and themes, explain grammar and vocabulary, help with pronunciation, give instructions and offer support.

DYNAMIZER SUPPORT

In addition to your virtual teacher, a member of our Dynamizer team will be paired with you throughout your program and will orient you to the program, supervise your learning process, answer your questions, and offer you encouragement and motivational support. Your Dynamizer will be in contact from the first week of the program and will check in with you throughout your learning journey by phone and email.

TABLET OR COMPUTER

The My Ardor English learning platform can be accessed through a web browser on a tablet or computer, and is compatible with both Android and iPad. Your learning progress is synchronized across devices, so you can learn when and where it best suits you. Offline learning is also available: units can be downloaded and your progress is automatically uploaded when you reconnect to the internet.

Courses align with CEFR, the Common European Framework of References for Languages, the universal standard for language competency.
